

Manifesto: Danie Martin

Hi my name's Danie and I'm running for one of the Campaigns Officer positions. I'm a first year Psychology student and currently living in Digby Stuart. I'm running for this position because I want to promote current campaigns among the students, to develop new campaigns that will reach a wider number of the student body and to redevelop the way in which the RSU, campaigns and the student body interact. Here is a list of some of the things I would like to introduce:

- Work with the student media officers to get links between current campaigns, future campaigns and students; creating a multi-media platform
- To help students campaign on a university, local and national level
- Accessible channel for students to get hands on in campaigns they have interest in and to raise awareness and interest in existing campaigns
