

## **Manifest for the election of Whitelands College president 2011/12**

My name is Elijah Williams, I am currently studying Sports and Exercise Science and I plan to run for Whitelands college president for the 2011/2012 year. I am a hard working young man and I believe that becoming College president will allow me to voice the opinions of students living on and off campus.

### **Actions I plan to take:**

- To help the mature, international, on and off campus students at Roehampton University with regards to and concerns they may have or information they may want to know.
- To help new students attending Roehampton with fresher's week and throughout the academic year, to help them integrate in University life.
- To provide advice one to one with students if ever they need to.
- Help with social events to rebuild the Whitelands Spirit.
- To ensure that any available services, for students are put across to them more effectively, with the use of posters, leaflets and social networks.
- To communicate with RSU members if and when students within the College campus have any problems or need information on any other services.
- To MAKE sure that Whitelands campus is not left out from the other campuses.
- To grow and develop what my predecessor has accomplished before me; to carry on building Whitelands.
- To work as a team with the social sec to improve upon Whitelands community and social status, and to communicate with the social sec when it comes to events so that students are in the know.
- To improve the community with regards to diversity and student well being at Whitelands College.

Overall I want to PUT Whitelands College on the map!

I will work upon these actions with the help of RSU members and the social sec on Whitelands, we will work as a team to help you the students of Whitelands College. We will develop, improve and make your experience something to remember.
