

Hello there Roehampton!!!!

How's it going?! I'm Michael Moore and I want your vote for Sport Roehampton President. After joining Roey in September, Sport Roehampton has played a big role in my university experience. As a current Sports Representative, I have seen how much sport at this university can have such a huge impact on the wider community. These are just some of the ideas I have to improve Sport Roehampton.

I'll ensure to work closely with the representatives of each individual team to ensure all possible issues of Sport Roehampton can be brought up and spoken about. Captains, Social Secs, Chairmen/Women, Sabbs and Dave Bush will all be big game players in developing the Sport Roehampton experience.

To those of you who already participate in sport at Roehampton, you will already know that sport is a great way to meet new people. May it be through meeting new teammates, or through sport socials, a sense of community is always inevitable.

In addition, I want help improve the facilities and coaching available at the university. The university already has a great setup, through sports membership, allowing everyone to get involved in sessions for free. However, I want to increase the number of classes, in addition to the number of participants.

The equipment currently available to the students of Roehampton is brilliant. However, we can always add onto a thriving community. We must look at the success that the rugby team had this year in gaining a sponsorship deal with Wahoo in Putney for their new kit. I believe other teams can use this success as a motivational plateau to increase the budget their team has in ensuring quality.

Sport plays an integral part in society. As a result, I believe ALL the teams at Roey should be focused upon. May it be ultimate frisbee, badminton, American football, table tennis, rowing or hockey, should have similar infrastructures as the bigger teams such as football, rugby and cheerleading. I will fight to make sure ALL teams have their say.

A successful year has seen men's tennis, rugby and football win their leagues respectively. I believe we should build on the successful foundations these teams have built, in addition to increasing the sizes of the smaller teams.

As you're all aware the London 2012 Olympics is just around the corner. As a London university, I believe we can utilise upon such a promising future. There is potential for more sport funding for universities in London due to effect of the huge campaign.

As such a huge percentage of the university is made up of females; it is a shame that more do not get involved with what is available so close. If elected, I would fight for females who do not currently participate in Sports Roehampton. With help from others, I will think of new and fresh ideas to motivate the quieter minority to get involved.

Joining Sports Roehampton was one of my best decisions at university so far. It will be the best one you make as well.

MUCH LOVE – MICHAEL
