

Wade Tomlinson- Whiteland's CP Manifesto.

Whitelands, friends, peers, collegial participants! My name is Wade Tomlinson and I'm counting on your vote for Whiteland's College President.

I'm currently a second year student in a Health and Human Science/ Sport Science Combined course, which is fully based on the campus. I work with Sport Roehampton in coaching the Boxing club and am also a Student Ambassador doing all sorts of jobs, working with the University. I've been a proud Whiteland's student since 2009 and hope to be returning on campus next year. After an amazing couple of years, I want to repay the great satisfaction that Whiteland's gave to me.

I'm not planning on feeding through the same false promises that have been urged for years, but my aim is to know what I can get and make sure it happens! Although we do all hope for a cash point in the bar and free beer Thursdays...it's sadly not going to happen. But with knowing what is available to me, I would improve the campus to the fullest potential; if I can get it, I'm going to use it! We pay so much to live and study here, I think we deserve supreme comfort. Things that have already been proposed are a Whiteland's trophy cabinet for the big Mayday match and for Whiteland's to house the Shiteland's trophy WHEN we beat Southlands.

After attending all Whiteland's events last year such as: the Christmas Ball, Frugby, Shitelands and the biggest Whiteland's event, Mayday, I can see what is great about these events and where areas could be improved. I'm also hoping to bring in new events that will increase that Whiteland's spirit, these will range from fundraisers that go towards catering for Whiteland's students to normal entertainment! I think being a second year student will really help as I've already had the experience in a whole year on campus and have the view of half a year off campus. Working close with the Social Secretary and May Monarch is a must, and with this team I hope to make Whiteland's, not just a great place to live and not just a great place to study but a fantastic experience for all those who step foot onto the campus.

Working as a massive voice between students and officers will be great; I like to voice my opinion and having it solidly reinforced with the hundreds of voices and new fresh ideas would be awesome. A few of my aims include improving usage of Whiteland's social spaces, ensuring security is on top form, enlightening people on the opportunities that are available to them and keeping Whiteland's as an open, homely, safe community.

We should all work together in keeping Whiteland's the best campus in Roehampton. Together and only together can we make this the best year Whiteland's has experienced for decades! One man can change a campus but one campus can change Roehampton.

LET'S DO IT!! WHITELANDS!!!!!!
